

Athens, 4/12/2013

EOPYY Press Release

EOPYY takes special care for the functioning of the Committees for External Medicines and High Cost medicines in order to protect patients' health who are insured by EOPYY during the strike.

In particular, in cases referred to the Committee, and if specialists are on strike and an ongoing treatment is concerned, the therapy can be continued for one month, without the decision of the Committee.

For pediatric cases relating to the prevention of a serious disease of the lower respiratory system requiring hospitalization due to respiratory syncytial virus RSV, a pre-approval can be given from a doctor - pediatrician alternate member of the Committee for Medicinal Products in Athens.
