

To
the Honorable
Mr Adonis Georgiadis
Minister of Health

Cc: Mr Nikolaos Choulis, Chairman of the Committee for the Preparation of the
List of Prescribed Medicinal Products
Mr Demetrios Lintzeris, President of EOF

**Re: Inclusion in the reimbursement list of the new medicinal products that were
priced on 11/2/2014**

Chalandri, April 9, 2014

Dear Minister,

We would hereby like to express the deep concern of the industry for the fact that until today, the new products, which were priced on 11/2/2014, i.e. after 3½ years, have not yet been included in the list.

At this point, it is worth mentioning that according to your Ministerial Decision No 82961 (Gov. Gazette 2219/B/9.9.2013) which is currently in force, **the positive list is revised within 30 days from the occasional issue of a Prices bulletin, consequently, the whole procedure should had been concluded before 11/3/2014.**

In parallel, it is pointed out that **EOF, by means of its announcement dated 4/4/2014 informed the pharmaceutical companies that it already proceeds with the pricing of medicinal products for which an application was filed until 28/2/2014**, in accordance with the applicable laws, which provides the issue of a Prices Bulletin with new products, every 90 days. Consequently, the Committee for the preparation of the list of prescribed medicinal products should have already concluded the task of including the products priced on 11/2, whereas it will soon be requested to examine the remaining new products.

Taking into account the above, **we kindly request that you promptly proceed with all necessary actions so that the revised list of prescribed medicinal products is issued to the benefit of patients and for the smooth operation of the health system.**

Yours sincerely,

Konstantinos M. Frouzis
President

Paschalis Apostolidis
Vice President
